

# Better scheduling for the entire organization for free (seriously)

Replace basic and pricey scheduling tools like Calendly. All GoodTime Hire customers get access to the enterprise edition of GoodTime Meet for their whole organization — at no additional cost.

## Spend less, get more

Finance is gonna love this. Lose your pricey contract with Calendly, consolidate your tech stack, and get enterprise-level scheduling automation for every meeting.

### Company-level controls

Meet does what basic tools can't, including company-level branding, scheduling links (including shared access), agendas, and more.

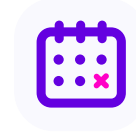

### Advanced scheduling

Internal meeting? External? Shared scheduling links with people outside your organization? We handle all of that and more.

### Data and insights

View meeting data by individual, team, or for the organization as a whole. Analyze meetings by type and uncover bottlenecks.

### Calendar View

Stop bouncing between Google Calendar, Outlook, and scheduling tools. Manage your calendar and scheduling links in one platform.

## Built for your entire organization

### Sales & Marketing

- ✓ Keep your calendar full of demos without all the back-and-forth scheduling emails with prospects
- ✓ Instantly route incoming leads to the right reps with custom lead routing synced with your CRM
- ✓ Unmatched branding helps you create a unique, branded experience from the first touchpoint to the last

### Customer Success

- ✓ Make it easy for customers to schedule or reschedule as needed without back-and-forth emails
- ✓ Evenly distribute customer meeting requests across a pool of team members
- ✓ Categorize your scheduling links by meeting type so calendars always stay organized

### Recruiting

- ✓ Create an engaging and branded candidate experience from the first hello
- ✓ Wake up to scheduled interviews and say goodbye to endless scheduling threads
- ✓ Give candidates the flexibility they expect with self-scheduling and rescheduling

# Enterprise features separate us from the pack

You deserve better. Here's why your organization will love the switch to Meet.
