

**TL;DR:** The Uber for Business integration with GoodTime allows you to seamlessly automate the delivery of \$25 or \$50 Uber Eats or Uber Ride vouchers to elevate your candidate experience in your scheduling process in North America (US & Canada).

The expected use case for this integration is when you wish to enhance your candidates' interview experience by offering candidates:

- Uber Eats voucher if you have scheduled them to participate in a more social lunch interview
- Uber Ride voucher if you have a candidate whom you would like to travel for an in-person interview to HQ or onsite
- Great for executive levels or to just thank the candidate for participating in the interview process.

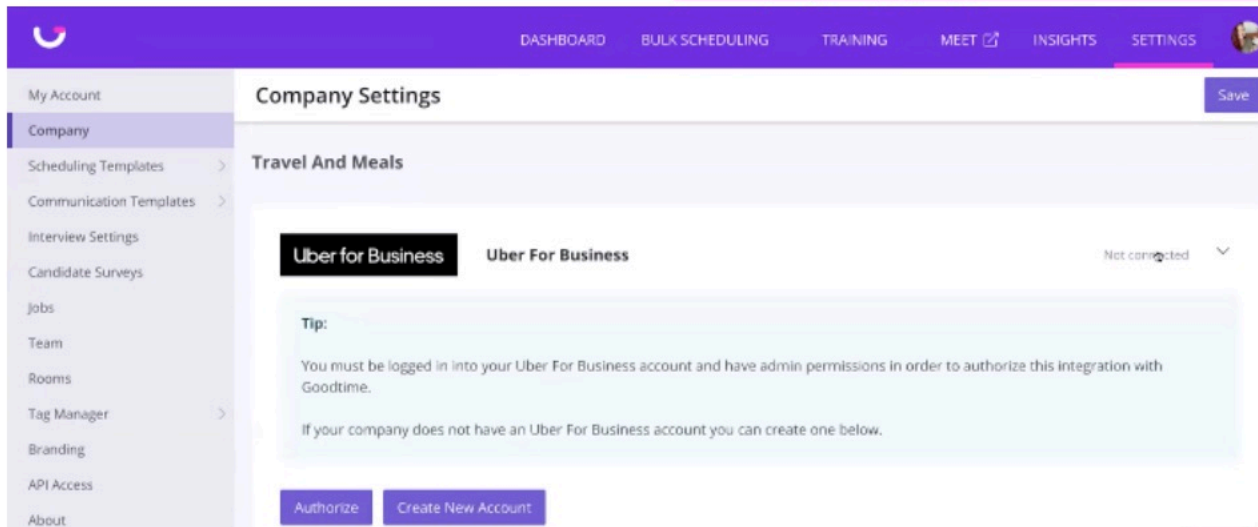

### Integration Setup:

The setup steps for this integration are very simple and are demonstrated in the following video.

1. Go to **Settings>Company>Travel and Meals**

2. Scroll down to **Uber for Business** and click '**Authorize**'.

- Note: To establish this integration you will need to be a Super Admin within GoodTime as well as an Admin within your Uber for Business account.
- Don't have an Uber for Business account? [Set-up by logging into Uber for Business](#)

## Using Uber for Business Voucher Variables:

Please note that the **\$Uber...** variables below will only generate a link when you finalize the candidate's schedule. At present GoodTime allows for the use of 4 variables for Uber for Business vouchers:

\$25.00 Uber Eats voucher = **\$Uber.Eats25**

\$50.00 Uber Eats voucher = **\$Uber.Eats50**

\$25.00 Uber Travel voucher = **\$Uber.Ride25**

\$50.00 Uber Travel voucher = **\$Uber.Ride50**

By including any of these above variables in your ***candidate confirmation email*** it will auto-generate a unique link that the candidate can access in order to redeem the associated Uber voucher in the value listed. If you are using the auto-schedule functionality, you would need to switch to "Require Review" for the candidate confirmation email to be sent with the Uber voucher.

- **Duration:** The vouchers are currently redeemable 24 hours before and after the interview start date and time.
- **Canceled Interviews:** Currently, if you cancel the interview, it does not automatically cancel the voucher. Cancellations would need to happen by "Cancel Campaign" in Uber for Business Dashboard. **Automation COMING SOON!**

While GoodTime helps automate the delivery of these vouchers to your candidate, we are not involved in the management or redemption of these vouchers in any way. To track which vouchers have been redeemed you would need to log into your Uber for Business account and track it directly within the Uber for Business App.

**Note!** At present, the above 4 voucher options are the only ones available. The GoodTime product team are open to feedback on different voucher denominations that customers may find more valuable. Please pass your feedback to your GoodTime CSM and drop it into [Productboard](#).
